Vice President report –

One of the main reason for the flooding is that the drain culverts between the rifle range and the pistol range were clogged. The culverts will be cleaned out and additional pipes added to the rifle range side to promote proper flow. The downspouts for the pistol and rifle house will be attached to a pipe that will direct the flow to the creek on the north side of the range.

Firewood is available to anyone that wants it from the tree trimming. It is out on the ranges.

Executive Officer report –

On Vacation

The exterminator has been to the range and has taken care of most of the problems. There is still a large nest in the south wall of the pistol house so please be careful. The exterminator has been called to come out again and hopefully take care of this nest.
